

Why Choose the Quincy University Hybrid 8-Semester OTD?

Because it's not just about getting a *degree*—it's about preparing for a career that's transformative, forward-thinking, and future-proof.

At Quincy University, our 8-semester hybrid OTD program offers much more than just a pathway to licensure. Here's what sets it apart:

♦ 1. *Doctoral Depth & Distinctive Leadership*

The OTD equips students with advanced skills in leadership, advocacy, program development, evidence-based practice, and scholarship—essential for the evolving role of OTs in healthcare, education, and community systems. A master's may prepare you to practice; a doctorate prepares you to lead, innovate, and influence – as well as practice.

♦ 2. *Flexibility with High-Touch Learning*

Our hybrid format gives students the flexibility of online coursework paired with immersive, in-person labs that emphasize community, collaboration, innovation, and hands-on learning. You don't have to move your life to move your career forward.

♦ 3. *Capstone = Career Differentiator*

The doctoral capstone isn't just a requirement—it's a personalized project and experience that lets you dive deep into an area you're passionate about. You leave the program with a tangible product, professional impact, and deeper expertise.

♦ 5. *Mission-Driven, Mentorship-Rich Environment*

At QU, you're not a number. You are part of a supportive learning community rooted in Franciscan values—compassion, service, and respect. You'll be mentored by faculty who care deeply about who you're becoming, not just what you're learning.

♦ 6. *An Investment in Lifelong Opportunity*

While the initial cost and time may be greater, the long-term return on your personal, professional, and leadership potential is far more valuable. It's not just an education—it's a launchpad.

Unlock Your Potential with the Quincy University OTD Program

Empowering Lives through the Power of Occupation

Choosing an OT program isn't just about a degree—it's about your future. Our 8-semester hybrid Occupational Therapy Doctorate (OTD) at Quincy University is designed for those who want to:

- Lead change in healthcare, education, and community settings
- Dive deep into areas they care about through a doctoral capstone
- Learn flexibly with both online and immersive in-person experiences
- Be mentored by faculty who value your growth, not just your grades
 - Build a career that's not only viable, but visionary

Why settle for what's next—when you can prepare for what's *beyond*?

Join us at QU and become part of a mission-driven, student-centered program where your education empowers your voice, your impact, and your future.

Let's match who you are with where you're going.
